## **GMP Production Officer, 100%**

### **Job Description:**

Object:	Operation management
Reporting/supervisor:	Head of GMP Production
Location:	Zurich/Schlieren
Start:	by arrangement
Language:	English and German

### **Background:**

CUTISS AG, a biotech company spin-off of the University of Zurich (UZH), focuses on the development of personalized bioengineered skin graft products for the treatment of skin defects. Its lead product denovoSkin™ has successfully completed Phase I in pediatric patients. Clinical Phase II studies are underway in Europe and Switzerland.

The qualified candidate is a highly motivated, interactive individual that possesses the ability to working individually and collectively. The successful candidate will demonstrate clear and professional verbal, written communication and reporting.

**Your responsibilities** will include the production of autologous skin substitutes for phase II clinical trials according to SOPs and GMP guidelines in the cleanroom facility of Wyss Zurich; the support of the production team in the validation of analytical methods, production processes and equipment qualifications; as well as participating to the further development of the product and the production processes. You will also be involved in the generation and review of the GMP documentation, together with the warehouse and laboratory management.

**You** hold a B.Sc. in a biological field (e.g. biology, tissue engineering, biotechnologies, and biomedicine) or a comparable education. Practical experience working with human cell cultures and strong aseptic working skills are a must. Ideally you bring with you some experience in GMP environment. You have a communicative, team-oriented and flexible personality with a great sense of quality, responsibility and an independent working method. You are fluent in German and English (additional languages are a plus) and you bring good MS-Office knowledge with you.

**We offer** the unique opportunity to be part of a young and motivated project team with the vision to change the patients' quality of life. This interesting and challenging job will give you the opportunity to further develop your working skills in a biotech start-up environment and to get in touch with international partners and clinical trial centers. We offer:

- flexible working hours in arrangement with the head of department
- competitive benefit package
- a young and dynamic team
- 5 weeks holidays (for 100% quota)

**Requirements**

- work permit in Switzerland
- Solid background in Human Cell Culture
- Demonstrate interpersonal, oral and written communication, and organizational skills
- Attention to detail with excellent organizational and record keeping
- Excellent interpersonal skills
- Fluent in English both oral and written
- Good German knowledge

**Desired Skills and Experience:**

- Demonstrate ability to work independently
- Self-reliant in determining priorities
- Goal oriented
- Strong organizational and communication skills

**Work Environment:**

Laboratory/office environment.
