

CUTISS AG, a biotech company spin-off of the University of Zurich (UZH), focuses on the development of personalized bioengineered skin graft products for the treatment of skin defects. Its lead product denovoSkin™ has successfully completed a Phase I clinical trial for the treatment of burns and reconstructive surgeries. Clinical Phase II studies are underway in Europe and Switzerland.

For our Regulatory Support unit in Schlieren, Switzerland, we are seeking a highly dedicated

Regulatory Affairs Associate (f/m/d) 100%

The qualified candidate is a motivated, interactive individual that possesses the ability to work individually and collectively including cross-functional collaborations.

Your main duties

- Support preparation of submission packages for Authorities
- Support market approval preparations
- Support coordination of Investigational Medicinal Product Dossier (IMPD) and related documentation updates
- Involvement in the generation and review of GMP documentation with regulatory relevance
- Provide other departments with regulatory support

Your background

You hold a B.Sc. or M.Sc. in a biological field (e.g. pharmacy, biology, tissue engineering, biotechnologies, and biomedicine) or a comparable education. Practical experience (1+ years) working in a Quality or Regulatory unit is particularly advantageous. Ideally you also have some experience in GMP environment and knowledge about ATMP regulations.

Desired Skills and Experience

- Knowledge of GMP and ATMP regulations is highly desired
- Attention to detail with excellent record keeping
- Great sense of quality and responsibility
- High level of accuracy and organizational skills
- Demonstrate ability to work independently and efficiently
- Self-reliant in determining priorities
- Excellent interpersonal skills and team-oriented attitude
- Clear and precise professional verbal and written communication and reporting skills
- Proficient in English (both oral and written), German and any other languages are a plus

Place of work

Grabenstrasse 11, 8952 Schlieren

We offer the unique chance to be part of a young and motivated project team with the vision to change the patients' quality of life. This interesting and challenging job will give you the opportunity to further develop your working skills in a biotech start-up environment and to get in touch with international partners and clinical trial centers. In summary you can expect:

- A high pace start-up environment
- flexible working hours in arrangement with the team leader
- competitive benefit package
- a young and dynamic team
- 26 days of holidays

Special remarks

This position requires occasional weekend on-call duties and as it also includes working with human cells, we ask our employees to be vaccinated for Hepatitis B or be willing to do so (vaccination cost will be absorbed by CUTISS) in order to protect them from potential infections.
